

Reach Up Adds over 5 feet to loader lift height
Reach Out ... Adds over 6 feet of horizontal reach
Pick Up As much as *1000 lbs.

It's a Contractor's Tool

- Load generators & other small equipment
- Handle & Set Pipe
 - Do Light steel erection
 - Handle concrete forms

Pluspick, carry, & place all types of loads in areas where larger equipment just wouldn't fit.

Landscapers Love It

The Telescoping Crane Jib is ideal for loading, carrying, and setting trees and other large plants. The extra lift height makes it possible to pick trees above the balance point for safer handling.

Lots of Industrial Applications

Plants, foundries, farms, in fact almost every industrial skid-steer user finds the Telescoping Crane Jib to be an indispensable tool.

Telescoping Crane Jib

For Skid-Steer Loaders

Model 130

- Horizontal Reach** Telescopes from 4' to 6'
- Vertical Reach** 5' above bottom of quick-tach
- Lift Capacity*** 1,000 lbs.
- Shipping Weight** 280 lbs.
- Quick-Tach** Universal Skid-Steer Quick-Tach

***Caution:** Lift capacity rating is for the Telescoping Crane Jib only and does not reflect the actual lift capacity of the skid-steer loader which will vary by make and model. Also be aware that the farther out the load is moved, the more the capacity of the loader is reduced.
